# Training Seminars

*"For the past four years, Erik has provided the HazMat training at the SGIA convention. His delivery, attention to detail, ability to stay current regarding changes to the transportation issues facing the industry keep the course fresh and up to date. Erik is a great teacher, and the students consistently provide great evaluations on both his teaching as well as course content. He takes a difficult, dry subject, and makes it entertaining and relevant to the typical facility in our industry."*

**Marci Kinter,  
Vice President,  
Government & Business Information**

## "49CFR Hazardous Material Training"

# Training Seminars

## "49CFR Hazardous Material Training"

The Department of Transportation makes training mandatory for almost anyone who handles hazardous material, regardless of the amount. This introductory-level course covers basic skills needed to prepare, offer and accept domestic shipments of hazardous materials. Instruction will focus on non-bulk packages transported by motor vehicle and meets applicable requirements for initial and recurrent training.

### Who Should Attend

Personnel responsible for the safe shipment of hazardous materials, including anyone who fills packages, marks or labels containers, completes or signs shipping papers, loads or unloads vehicles, or operates vehicles used to transport hazardous materials.

### Course Outline:

- Organization and Structure of the 49CFR
- Definition, Identification and Classification of Hazardous Materials
  - Hazard Classes/Divisions
  - Packing Groups
  - UN Numbers
  - Precedence of Hazards for Multiple-Class Materials
  - Proper Shipping Name Selection
  - Technical Name Rule
  - Hazardous Substances
- Hazardous Materials Table
- Packaging Selection/Requirements
- Marking and Labeling
- Shipping Paper Requirements
- Placarding
- Exceptions
- Additional UPS Requirements

This class meets DOT requirements for initial and recurrent training (49 CFR 172.704).

### Course Materials:

Manual Documenting Course Content and DOT Regulations

### Course Cost:

\$540 for day and half Session – 12 Hours.

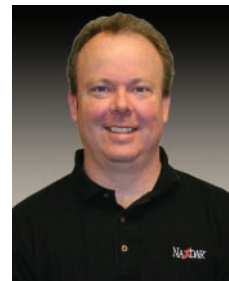

### Registration

- Register online at: [www.NazdarConsulting.com](http://www.NazdarConsulting.com) or call 800.677.4657 ext. 2003
- Deadline for each Class is two weeks prior to the Class Date
- Classes are limited to 20 participants
- There will be a \$100 Cancellation Fee to anyone who cancels less than 10 days prior to the Class Date.

### Hotel Accommodations:

If you plan to stay overnight, we recommend the following hotels at each of the seminar locations as listed below. Please request the Nazdar rate when calling for your reservation.

| City             | Hotel Name                                     | Rate                       |
|------------------|--|----------------------------|
| Atlanta, GA      | Wingate Norcross<br>(770) 622-7277             | \$79                       |
| Garden Grove, CA | Hampton Inn Buena Park Suite<br>(714) 670-7200 | \$105-139<br>(Rate Varies) |
| Cincinnati, OH   | Holiday Inn Express<br>(513) 860-2900          | \$65                       |

Erik Reed

Manager, Regulatory Compliance  
Bachelor of Science, Environmental Science  
University of Kansas

Erik has been with the Nazdar Company since 1992 and is Manager of the Regulatory Compliance Department with overall responsibility for department functions. Erik has specialized in hazardous materials transportation issues and has 15 years experience related to the ink and coating industries. Erik manages all aspects of hazardous material transportation (domestic and international) for Nazdar. These responsibilities include directing the classification of hazardous materials, UN package development and training for all eleven Nazdar distribution sites. Additionally, since 2002, Erik has conducted hazardous materials transportation training at the Specialty Graphic Imaging Association's (SGIA) annual conventions. Erik's teaching style focuses on understanding how to use the required regulations in a hands-on manner that can easily be applied at the work place.

### Instructors:

Jeff Vickers

B.S. Environmental Studies, Pittsburg State  
University, Pittsburg, KS and graduate degrees  
in both biology and business administration

Although not a full time Nazdar employee since 2005, Jeff has remained in a consulting role with the company. During his tenure with Nazdar, Jeff spent 16 years leading Nazdar's Regulatory Compliance Department, most recently as its Director of Compliance, in charge of all regulatory, environmental, health & safety issues. A portion of this time also included supervisory responsibilities for the quality assurance/quality control and color matching departments. Jeff is an ISO 9001:2000 lead auditor. Other work experience includes positions as adjunct science instructor at the college level as well as staff scientist for an international consulting firm, with a focus on environmental issues.

While at Nazdar Jeff was a speaker at numerous printing trade shows and conventions, including SGIA, National Environmental Health & Safety Conference and DIMA regarding regulatory and environmental issues. For many years he was a member of SGIA's Environmental and Health & Safety Committees. Jeff has also served for well over a decade on the Johnson County Local Emergency Planning Committee, many years as Chair and Vice Chair.
